Our Culture

What IHS is About

Everyone's Choice for Imaging – We work together as a team to be every customer's choice for imaging needs. Creating a culture of engagement where we are everyone's workplace of choice to deliver imaging services.

We Always Strive to Be Better – Never become complacent and continuously seek improvement on everything, from improving processes for efficiency in providing quality patient care, to how we treat our peers.

Our focus is continuous improvement in all that we do. Therefore, those who join our team are naturally driven to excel, to challenge the status quo. And while we work hard, we believe in maintaining the balance of career and life. We play hard too!

In many ways, IHS is not a typical imaging center network. We are building something that we believe is better, more valuable to the community and more rewarding to our people.
