Our Team Experience

Teamwork is the engine that drives our company and is essential to our success. If teamwork is the engine, the individual is the power. We believe in the power of the individual.

The flexibility to do my job most efficiently and without interruption if I need to not be disturbed. The trust and confidence my supervisors have in my ability to do my job and to also help others in doing theirs when there is a need. The way upper management does listen to ideas and questions that may arise. Love helping the patient's. If they are having a bad day or are scared to do their exam, talking with them, calming them down and then having them laughing at the end of the phone call!

Contact Center
IHS Employee

I like the encouragement by my coworkers as well as modality manager to find issues and problems and do what I believe is best to make a better environment for my team!

Xray Technologist
IHS Employee

I like that I feel proud of the care we provide. Day in and day out I believe IHS provides efficient, high quality care to all our patients, from the minute they walk in the door and are greeted at the front desk to the extra effort we put in after they've left following up on their comments/complaints and going the extra mile to gather prior imaging/reports from outside facilities. In the end I think the patient experience and imaging/reporting quality we provide is exceptional.
